Amorpan

Combining innovation and tradition we put ourselves at the service of our customers to provide quality solutions to consumers, respecting the taste and ease of use.

The line of Amorpan products is our big response to these needs.

Amorpan products are based on ingredients and raw materials of the highest quality, they are also nutritionally balanced, thanks to the use of raw materials and semi-finished products from market leaders that ensure quality certification, with European standards.

Buying Amorpan products means to be in step with market demands, without onerous investments in new technologies and with a considerable saving of time, cost of production and warehousing.

Why Amorpan products

Uniquetaste: All our products contain sourdough as well as high quality raw materials

Ready to use: They can be eaten as such, or heated in the oven, to enhance the taste

Long shelf life once defrosted: the technology we use allows all our products to remain softer and more fragrant longer

Minimization of costs: no waste from excessive production and even missed sales from lack of product. Preservation of product for 12 months at -18°C (-0,4°F)

Wide range: snacks, regional typical breads, italian pizza and focaccia

Possibility of customized product: on request, with a minimum order quantity

Innovative, patent pending and unique:

customers are becoming more demanding and looking for news. Being able to offer exclusive products, today helps to implement new business opportunities

With Amorpan it's possible!
